## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 34-57, 60-62 and 71-73, drawn to method of making an oil by culturing *C. cohnii*.

Group II, claim(s) 58-59 and 63-64, drawn to an oil.

Group III, claim(s) 65-67, drawn to a *C. cohnii* microorganism.

Group IV, claim(s) 68-70, drawn to a method of using a microorganism as a food or food supplement.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

No common inventive concept is shared among groups I-IV, since a technical relationship is lacking among the claimed inventions involving one or more special technical features because the cultivation of *C. cohnii* using a carboxylic acid or carboxylate ion as carbon source to produce docosahexanoic acid is known. See, e.g., Vazhappilly *et al.*, of record, Table 1, page 554. The reference also demonstrates that the microorganisms produces this fatty acid, as well as biomass containing this material.

The requirement of unity of invention is not fulfilled because there is no technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" means those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1651

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
